When it comes to solving the world’s strangest mysteries, there is a dynamic new team in town! Larry Flaxman, President and Senior Researcher of ARPAST, the Arkansas Paranormal and Anomalous Studies Team, one of the nation’s largest and most respected investigative groups, has joined forces with Marie D. Jones, respected author of “PSIence: How New Discoveries in Quantum Physics May Explain the Existence of Paranormal Phenomena” and “2013-End of Days or A New Beginning: Envisioning the World After the Events of 2012” to form **ParaExplorers**, a joint venture devoted to exploring the unknown.

ParaExplorers will bring these two intellectual and creative minds together to write, produce and create a line of books, television show concepts, children’s books and other products, including a comprehensive website, www.paraexplorers.com, all devoted to the paranormal, ancient knowledge, unknown anomalies, and cutting edge discoveries. From ghosts to the pyramids, from cryptoids to conspiracies, from quantum physics to consciousness, from occult symbolism to life after death, **ParaExplorers** will take on the unsolved mysteries of this world and beyond.

First up for Flaxman and Jones is the book “**11:11- The Time Prompt Phenomena: The Meaning Behind Mysterious Signs, Sequences and Synchronicities**,” for Feb. 2009 release by New Page Books. Also on schedule for 2009 release, “**The Resonance Key: Exploring the Links Between Vibration, Consciousness and the Zero Point Grid.**”

The website, www.paraexplorers.com is under development, scheduled for completion by later this summer.
